

We've been asked how clubs/chapters/groups can help support our organization, so we set up a program to recognize them.

Our website has been averaging 3000+ views a month since March. Speaking with several riders, we found out that knowing a group is supportive of motorcycle safety is a key element for them to join. There are a lot of independent riders looking for a club to join but not sure which one.

We would post your organization on our Sponsoring Partners page under a Supporting Clubs title, as well as link it to your website. This could develop more traffic to your website and possible future members.

If Interested:

For Clubs with 30 or more members; we ask that One Officer and six members are ESMSEP members

For clubs with less than 30 members; we ask that One Officer and 3 members are ESMSEP members.

If you are presently a member of ESMSEP and belong to a club, you can email us your info to empiremembers@gmail.com and we'll keep track of the info and notify your club that we would be posting them on our website.

Info to send:

Name, Club Name & Website, and number of members in club.

Many Thanks,

Your ESMSEP Team
